With support from world leading associations and China government, China Leasing Summit was successfully held on 15-16 May, 2008 at Crowne Plaza Hotel Beijing in Beijing China with over 140 attendees

mainly from world leading equipment vendors. The theme of the summit focused on the vendor leasing business, examining various platforms for vendor leasing, presenting successful models and providing the outlook for such programs.

Speakers were primarily from China government and world renowned lessors and vendor companies including Ministry of Commerce (MOFCOM), China Banking Regulatory Committee (CBRC), the Alta Group, SFL, DLL, Fortis Lease, Hitachi Capital, EMC2, Nissin Leasing, GE Capital, and Unicredit Leasing. Among the topics were the tax laws, regulatory overview and government supervision already in place to govern leasing and lending practices. Most of the attendees have spoken highly of the activity, which was beyond their expectation, according to some of the attendees. They do express their interest in next year's summit.
